Akshay Bartakke - Angular Frontend Developer

+91 9307011768 | bartakke7@gmail.com | Maharashtra, Pune - 411033

Summary of Qualifications

- **Senior Front-End Engineer with 8.1 years of progressive experience** architecting, developing, and optimizing high-performance, scalable web applications.
- Extensive expertise in **Angular 8 to Angular 19, JavaScript, TypeScript, HTML5, CSS3, Angular Material, Git**, and building **enterprise-grade Single Page Applications (SPA)**.
- Proven ability to **lead development initiatives**, collaborate with cross-functional teams, and deliver maintainable, production-ready UI solutions aligned with business goals.
- Strong proficiency in **debugging, root-cause analysis, performance tuning**, and resolving complex front-end issues using modern browser Developer Tools.
- Deep understanding of the **Software Development Life Cycle (SDLC)** including requirement analysis, architectural design, implementation, testing, and deployment.
- Demonstrated strengths in **problem-solving, technical planning, and system design,material design**, with the ability to drive features end-to-end independently.
- Experienced in **Agile and Waterfall** delivery models with a solid track record in **team collaboration, code reviews, mentoring junior developers, and ensuring coding best practices**.

Skills & Abilities

- **Frontend:** Angular 8 to Angular 19,Web Components, Standalone Components (Angular 14+), RxJS, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS
- **Architecture:** Microfrontends, SPA Architecture, Port & Adapter, Modular Architecture
- **Tools & DevOps:** Git, GitHub, Bitbucket, Azure DevOps, CI/CD Pipelines, JIRA, VS Code
- **UI Frameworks:** Angular Material,Material designing, Bootstrap, PrimeNG
- **APIs:** REST API Integration, Interceptors, Observables, Async Programming
- **Testing:** Jasmine, Karma, Unit Testing
- **Other:** Performance Optimization, Responsive Design, Code Reviews, Accessibility (A11Y)
- **Soft Skills:** Agile Methodologies, Scrum, Sprint Planning, Code Reviews, Mentoring, Collaboration, Troubleshooting, Problem Solving, Documentation, Leadership

Experience

SENIOR SOFTWARE ENGINEER | GLOBANT INDIA| JAN 2022 – PRESENT

- Developed micro frontend (MFE)-based application integrated via WebView on mobile platforms.
- Implemented Port and Adapter architecture to enhance scalability and maintainability.
- Identified and resolved UAT and production bugs, improving release stability under tight deadlines.
- Migrated multiple Angular projects to Angular version 18 and 19 to leverage new features.
- Conducted code reviews to elevate code quality and foster knowledge sharing within the team.
- Mentored junior developers on Angular best practices, architecture patterns, and performance optimization.
- Collaborated with UX/UI designers to create responsive web interfaces that enhanced user experience.
- Created reusable components that increased code efficiency by 20 percent.

WEB UI DEVELOPER | VOLKSWAGEN IT SERVICES | NOV 2020 – DEC 2021
- Developed new widget and UI designs based on application requirements.
- Authored efficient, testable JavaScript code for validations.
- Ensured compliance of designs with specifications in HTML, Bootstrap, and Angular 7.
- Created multifunctional widgets for applications to enhance user experience.
- Collaborated with developers and end users to design and implement framework features using HTML and CSS.
- Engineered reusable and maintainable components to streamline development processes.
- Coordinated with backend developers to ensure timely readiness of all APIs.
- Utilized technologies including HTML, CSS, Angular 8, PrimeNG, JavaScript, TypeScript, VS Code, GitHub, and JIRA.

SOFTWARE ENGINEER | SAGACITY SOFTWARE | SEP 2019 – OCT 2020
- Developed User Access Management module enabling users to assign permissions across software platforms.
- Facilitated template creation for input/output CSV files, including header configuration.
- Enabled file uploads with field comparison and optional data overwriting capabilities.
- Provided download functionality for template files from the system.
- Collaborated in Agile methodology, responsible for updating story statuses and monitoring progress.
- Ensured project accessibility standards were consistently maintained.
- Analyzed business requirements from stakeholders to design new widgets and models per application needs.
- Authored efficient, testable JavaScript code for validations, ensuring compliance with HTML, Bootstrap, Angular 7 specifications.

WEB UI DEVELOPER | PRIMAL INFOSYS | JAN 2018 – AUG 2019
- Collaborated with a team to gather and analyze business requirements.
- Developed components using Angular, integrating API services with user interface.
- Implemented Angular routing concepts and created forms for enhanced functionality.
- Wrote operation contract methods to return data in JSON format.
- Designed modular architecture by creating Angular modules, components, and services for features.
- Utilized technologies including HTML, CSS, Angular 6, Angular Material, JavaScript, and TypeScript effectively.

Education

BACHELOR'S IN COMPUTER ENGINEERING| MAY 2016 | RMD SINHGAD SCHOOL OF ENGINEERING

SAVITRIBAI PHULE POLYTECHNIC DIPLOMA IN COMPUTER ENGINEERING | MAY 2013 | MIT

Achievements

RECEIVED AWARDS 'PAT ON THE BACK' MULTIPLE TIMES.
